Professional Summary

Professional and reliable Full Stack Developer with over a decade experience working as a remote freelancer. With the passion and dedication to grow and learn the latest technologies. Been working mostly my entire career on the web but very open to explore other environments and latest technologies.

I'm very passionate with my work and always try to satisfy all my clients with quality results. I am also always looking to improve my skills and look for ways to make everything smarter and easier.

Work Experience

June 2014 - Present

Upwork (Part Time Freelancer)
Top Rated Full-Stack Developer
<https://www.upwork.com/freelancers/~01090423d4e5b31514>

- Tech Stack:
- Wordpress
 - Shopify

Education

2006 - 2010

University of the East, Manila, Philippines
Bachelor of Science in Information Technology (BSIT)

2020 to Present

Udemy (<https://udemy.com>)

Been updating most of my recent skills via Udemy where I take various courses to upgrade and update my skills from time to time.

Languages

English — Conversational

Filipino / Tagalog — Fluent

Portfolio

I have built hundreds of websites in the past after working for over a decade as a web developer and below are just some links of the websites I can recall and that still exist online.

<https://padfurniture.com.au/>
